

EDAPPAL, KERALA — WORKING WORLDWIDE
ORBELISSTUDIO.COM

COMPANY PROFILE

Orbelis.

**Websites that move. Assistants
that answer.**

Orbelis is a one-person studio. You work with the person who writes the code.

The studio sits at an unusual intersection: award-grade front-end motion on one side, applied machine learning on the other. Most agencies do one or the other. The interesting work lives where they meet — a site that feels expensive and an assistant behind it that actually knows your business.

Background in NLP and deep learning, certified across Microsoft Azure AI, Google generative AI and IBM data science tracks. Currently building Dr Evide, a trust-ranked doctor discovery product for Kerala.

BASED

Kerala, India

FOUNDED

2026

TEAM

One, deliberately

TYPICAL BUILD

2 weeks

WHAT WE BELIEVE

Most business websites are brochures that sit still and answer nothing.

We build the opposite: sites that move with intent, an assistant behind them that knows your business and replies at 2am, and the automation that carries the enquiry the rest of the way.

One person on your project. No account managers. No template.

Three things that quietly cost you.

01

Enquiries go cold after hours

Someone asks at ten at night, gets a reply at eleven the next morning, and has already booked somewhere else.

02

The same ten questions, answered by hand

Timings, fees, eligibility, delivery. Typed out again by whoever happens to pick up the phone.

03

Work that lives in copy and paste

A form, a spreadsheet, a WhatsApp group and an invoice tool, held together by a person retyping between them.

SERVICES AT A GLANCE

01	BUILD	Brand & landing sites	₹40k — ₹70k
02	BUILD	Full sites & booking	₹80k — ₹1.5L
03	RUN	AI assistant layer	+ ₹25k setup
04	RUN	Business automation	From ₹30k setup
05	RUN	Care & retainer	₹5k — ₹15k / month

Prices are in Indian Rupees and exclude any taxes that apply. Every build includes the performance budget and the accessibility pass.

What gets built once.

01

₹40k — ₹70k

Brand & landing sites

A single, considered page built for one job: making a stranger trust you in eight seconds. Scroll-driven motion, real typography, sub-second load.

- Custom motion design
- Mobile-first build
- SEO + analytics
- 2 week delivery

02

₹80k — ₹1.5L

Full sites & booking

Multi-page sites with the machinery underneath — enquiry flows, appointment requests, content you can edit yourself, and a dashboard that shows what is working.

- Multi-page architecture
- Forms & booking flows
- CMS for your team
- Performance budget enforced

What keeps running afterwards.

03

+ ₹25k setup

AI assistant layer

A retrieval-grounded assistant trained on your own documents, prices and policies. It answers in your voice, cites your material, and hands off to a human when it should.

- RAG over your content
- Escalation to WhatsApp
- Malayalam + English
- Monthly retraining

04

From ₹30k setup

Business automation

The repetitive work between your tools, done without anyone retyping it. Enquiries followed up, leads logged, invoices and approvals moved along, and a report that writes itself. It starts with a short audit of what is actually worth automating, because most of it is not.

- WhatsApp & lead follow-up
- Invoices, onboarding, approvals
- CRM & spreadsheet sync
- Weekly report of hours saved

05

₹5k — ₹15k / month

Care & retainer

Hosting, uptime, content updates, assistant retraining, automation upkeep and a monthly report. The site stays fast and current instead of decaying quietly.

- Managed hosting
- Assistant & automation upkeep
- Content updates
- Monthly report

One enquiry, start to finish.

01

Enquiry arrives

By form, chat or WhatsApp, at any hour.

02

Assistant answers

From your own documents, in Malayalam or English.

03

Lead is logged

Into your CRM or spreadsheet, with what was asked.

04

Follow-up goes out

On WhatsApp or email, at the right moment, without anyone remembering to.

05

You get the report

Weekly: what came in, what was answered, what still needs a person.

WHO IT IS FOR

Clinics & healthcare

Patients ask the same questions at every hour. The site answers them and the front desk gets its day back.

- Appointment requests without phone tag
- Reminders sent automatically
- Timings, fees and preparation answered
- Departments and doctors easy to find

Institutions

Admissions season should not mean the office phone ringing all day about eligibility.

- Programme explorer
- Every enquiry logged in one place
- Eligibility and fee questions answered
- Content your staff can edit

Founders

One page that makes a stranger trust you, and a way to catch everyone it convinces.

- A landing site in two weeks
- An assistant that knows the product
- Leads routed to your inbox and CRM
- Analytics you can read

Brands & companies

The work between your tools, taken off the people currently doing it by hand.

- Follow-up that never forgets
- Reports that write themselves
- Orders, invoices and approvals moved along
- The tools you already use, connected

Small scope. Fast ship.

01

Scope

We strip the brief to the narrowest version that still wins. Most projects are half the size they first appear, and the smaller version ships.

02

Direction

One art direction, one hero idea, one scroll spine — agreed before a line of code. Hedged design is the expensive kind.

03

Build

Motion and 3D wired against a real performance budget. Sixty frames a second on a mid-range phone is a requirement, not a stretch goal.

04

Ship & keep

Launch, then a retainer that keeps it fast, current and answering. A site is a thing you run, not a thing you buy once.

WHAT YOU CAN HOLD US TO

60fps

Motion budget, enforced on mid-range phones

2 weeks

Typical delivery, scope agreed up front

1

Person on your project, start to finish

90+

Lighthouse performance target on mobile

Built, not templated.

Concept builds are labelled as such. Nothing here pretends to be a client engagement that was not one.

LIVE • 2026

PRODUCT, ENGINEERING, RANKING DESIGN

Dr Evide

Symptom-to-specialty routing and trust-ranked doctor discovery for Kerala. Doctors are ranked by verified credentials, experience and authentic reviews — never by who paid. The no-paid-ranking rule is enforced by a CI check, not a promise.

CONCEPT • 2026

DESIGN & BUILD CONCEPT

Clinic site + assistant

A demonstration build for multi-specialty clinics: department routing, doctor profiles, appointment requests, and an assistant that answers timings, fees and preparation instructions in Malayalam or English.

REACT

GSAP

RAG ASSISTANT

CONCEPT • 2026

DESIGN & BUILD CONCEPT

Institution microsite

An admissions microsite for colleges and training institutes — programme explorer, scroll-driven campus story, and an assistant that handles eligibility and fee questions before they reach the office phone.
